### **MONTHLY/SEASONAL OUTLOOKS**

ISSUED DECEMBER 30, 2021 VALID JANUARY - APRIL 2022

### **Weather Discussion**

The strong upper-level area of high pressure that resided off the California Coast the last two weeks of November stayed in place through the first week of December bringing well above normal temperatures and dry conditions to Central and Southern California. This area of high pressure moved off to the west and a series of Pacific storms moved inland over California from the Gulf of Alaska during the last three weeks of the month. These Pacific storms were only separated by brief weak areas of high pressure. Temperatures were below normal with the storms and near normal with the weak ridges the last three weeks of the month. For the month, temperatures ended up near to a little below normal across most of the area, except temperatures were a little above normal across the deserts (Fig 1). Periods of rain and snow moved across the region the last three weeks of the month. Precipitation was well above normal across most of the region in December, except there was below normal precipitation across some desert locations (Fig 2). The snow level was mainly between 7,000 and 8,000 feet, except it dropped to between 3,000 and 5,000 the last week of the month. Winds were light offshore during the first week of the month with the strong upper-level area of high pressure off the coast. Otherwise, winds were mainly from the south to west the rest of the month. Just ahead of and with the troughs, there were strong south to west winds over the wind prone mountain and desert areas. There was one weak Santa Ana wind event this month which occurred December 17-18.

### **MONTHLY/SEASONAL OUTLOOKS**

ISSUED DECEMBER 30, 2021 VALID JANUARY - APRIL 2022

### **Fuels Discussion**

The above normal precipitation this month brought improvement to the drought situation. There is no more exceptional drought across the region. From Los Angeles County northward there is now severe to extreme drought. East and south of Los Angeles County there is moderate drought (Fig 3). During the first week of the month, both the 1000-hr and 100-hr dead fuel moisture were at record dry levels and by the end of the month they were well above normal across the entire area (Figs 4 @ 5). The live fuel moisture has increased to near normal and is now mainly between 70% and 90% (Fig 6).

Fig 3: Drought Monitor December 30th, 2021

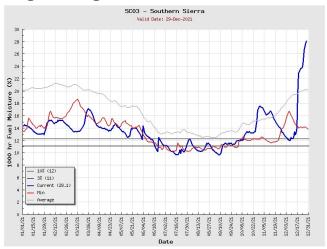

Fig 4: Southern Sierra 1000 hr Dead fuel moisture December 29th

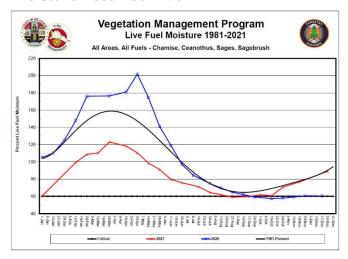

Fig 6: LA County Live Fuel Moisture December 23rd

### **SOUTH OPS OUTLOOK**

Sea Surface temperatures have cooled to a little below normal along the West Coast and sea surface temperatures in the Gulf of Alaska remain well below normal (Fig 7). Computer models show that these sea surface temperatures will remain below normal through the spring months (Fig 8). This will likely keep the area of high pressure further to the west and allow Pacific troughs from the Gulf of Alaska to keep moving inland into California. The sea surface temperatures in the Equatorial Pacific are well below normal and will continue to be below normal through at least March with only slow warming (Fig 7). These sea surface temperatures will approach normal levels in April, but by this point most of the rainy season will be done. Thus, the Pacific troughs are not expected to entrain abundant amounts of subtropical moisture. Temperatures will likely remain below normal, and precipitation will likely remain near to a little above normal from January through April. The snow level will likely remain mainly below 5,000 feet in January through April period. The amount of Santa Ana wind events will likely remain below normal through the winter and spring months.

### **STAFF REPORT**

NO. 22-01

**TO:** BOARD OF DIRECTORS

DAVE MCQUEAD, FIRE CHIEF

**FROM:** ALICEA CACCAVO, MANAGER, FINANCE & ADMINISTRATION

**SUBJECT:** DISTRICT PAY SCHEDULE

**DATE:** JANUARY 15, 2022

#### **RECOMMENDATION**

The Manager, Finance & Administration recommends the Board of Directors adopt, by Resolution the District Pay Schedule in accordance with California Code of Regulations Title 2, Section 570.5, Requirement for a Publicly Available Pay Schedule.

#### STAFF ANALYSIS

The CalPERS Board of Administration adopted an amendment to California Code of Regulations Section 570.5 (effective August 10, 2011) to require that a pay schedule is available publicly. The regulation specifies that compensation earnable is defined in statute and further clarified by California Code of Regulations (CCR) Section 570.5, and that salaries shall be "duly approved and adopted by the employer's governing body in accordance with requirements of applicable public meetings laws." Therefore, only those pay amounts that meet the definition of compensation earnable can be used when calculating retirement benefits. This regulation applies to all employers reporting compensation to CalPERS.

The pay schedule "Attachment A" to Resolution 2022-03 reflects all salaries currently in place and previously agreed to by the District Board of Directors or Fire Chief.

The pay schedule "Attachment B" illustrates the recommended revisions to the salary schedule per Resolution 2022-02 which is a previous agenda item for the Board meeting dated 1/19/2022.

STAFF REPORT 22-02

TO: BOARD OF DIRECTORS

FROM: DAVE MCQUEAD, FIRE CHIEF

SUBJECT: ACCEPTANCE OF COVID RELIEF FUNDING

DATE: JANUARY 15, 2022

#### **RECOMMENDATION:**

Staff recommends the acceptance of the COVID Relief Funding awarded under the California Department of Finance 2021 Budget Act. The acceptance of the award to the Rancho Santa Fe Fire Protection District will allow the reimbursement of \$1,154,981.00 towards unanticipated cost incurred during the COVID-19 pandemic. (Reference attachment)

#### **BACKGROUND:**

The 2021 Budget Act appropriated \$100 million of one-time general funds to provide fiscal relief to independent special districts to mitigate the effects of revenue losses or unanticipated costs incurred due to the COVID-19 public health emergency. The California Special District Association work closely with the California Department of Finance to determine eligibility and how to distribute the funds. These unanticipated costs incurred between March 4, 2020, and June 15, 2021 (aligns with similar federal timelines) are the same as defined and would have been an eligible use for CARES Act or ARPA.

On October 1, 2021, the application process was made available and closed on October 15, 2021. The Rancho Santa Fe Fire Protection District submitted an application of \$6,163,370.98 for unanticipated payroll and materials cost.

#### **CURRENT SITUATION:**

On December 16<sup>th</sup>, 2021, Chris Palmer (Senior Public Affairs Field Coordinator) of the California Special Districts Association notified the Rancho Santa Fe Fire Protection District through email the following:

"We are thrilled to inform you that the Rancho Santa Fe Fire Protection District has been awarded \$1,154,981.00 in COVID-19 relief funding under the \$100 million relief program from the California Department of Finance!

This funding arrives after special districts across California experienced budget and staff cuts necessitated as a result of the COVID pandemic. Throughout 2020 and 2021, California's special districts provided essential services to their local communities, maintained a large portion of the state's critical infrastructure, and employed thousands of front-line workers, but initially received none of the COVID relief funding available to cities and counties."

**Total Application Request:** 

\$6,163,370.98

**Total Covid Relief Funding Award:** 

\$1,154,981.00

COVID-19 FISCAL RELIEF FOR SPECIAL DISTRICTS

The 2021 Budget Act appropriated \$100 million one-time monies to provide fiscal relief to independent special districts for revenue losses and or unanticipated costs incurred due to the COVID-19 public health emergency. Monies are reserved for districts that have not received other forms of COVID-19 fiscal relief directly from the state or federal government.

The California Department of Finance has calculated the allocations and shared them with the State Controller's Office (SCO), who in turn has disbursed the funds to the county auditorcontrollers. Each county auditor controller must allocate the funds to the independent special districts in their county, within 30 days of receipt of funding from the SCO.

As noted on page 5 of the attached document, "COVID-19 Fiscal Relief for Special Districts -Allocations by Special District and County, your entity's allocation share is \$1,154,981."

Since you have monies invested in the County of San Diego's Treasury Investment Pool, unless notified by you in writing no later than January 7th, 2021, we will deposit your share of the allocation to your Oracle Fund 47650 RANCHO SANTA FE FPD.

If you have any questions, please contact Brian Ruehle, Deputy Controller in Financial Accounting and Reporting at (858) 694-2199.

#### **STAFF REPORT**

NO. 22-03

**TO:** BOARD OF DIRECTORS

DAVID MCQUEAD, FIRE CHIEF

FROM: COLE THOMPSON, BATTALION CHIEF

**SUBJECT:** SALE OF SURPLUS PROPERTY

**DATE:** JANUARY 15, 2022

#### **RECOMMENDATION:**

Staff recommends that vehicle #9611 is deemed surplus, and be sold to Fire Etc. for cash based on their offer of \$15,000.00.

#### **BACKGROUND:**

This vehicle was purchased in 1996 as a type I front line engine and has served our personnel admirably for over 25 years in both a first-out and reserve status. With the addition of a new type I engine, this vehicle is surplus and is no longer a necessity as it pertains to fleet inventory.

#### **CURRENT SITUATION:**

The capital improvement plan includes the acquiring of a new type I engine that has been received and is currently being outfitted. This type I engine was manufactured in 1996, and now being 25 years old with 80,000 miles, is no longer an efficient option as a fleet vehicle due to age, design, and ongoing mechanical issues.
